**NEWSLETTER**  
**MAY 2018**

Greetings friends and colleagues! We hope you are enjoying the warmer weather and lovely roadside spring flowers. Before it warms up too much, join us for the industry events below. We look forward to seeing you!

And as always, if you have news, job postings, or resources to share, please reach out to Elisa Maldonado-Holmertz ([elisa@texmda.org](mailto:elisa@texmda.org)).

## CHAPTER NEWS

### **TMDA Holds Quarterly Panel Discussion On Interoperable Medical Devices**

On April 19, 2018, the Texas Medical Device Alliance (TMDA; <http://texmda.org/>) held their First Quarter Meeting to discuss interoperable medical devices – devices that have the ability to exchange and use information through an electronic interface with other medical or non-medical devices.

... If Nemo can hack a system, is anything secure? Hackers are always looking for new and unique ways to access confidential data. In the example above, a fish tank temperature sensor was unsecured and unscrupulous individual(s) used it as a gateway to access a North American casino. Anything is possible, and hackers are getting more creative, per Chris Dupont (CEO of Galen Data, [www.galendata.com](http://www.galendata.com)). He, along with Wendy Marsh (Sr. Validation Engineer at CSA Healthcare, [www.csahealthcare.com](http://www.csahealthcare.com)) and Bruce Swope (VP Engineering at Sterling Medical Devices, [www.sterlingmedicaldevices.com](http://www.sterlingmedicaldevices.com)) led an informative discussion on Cybersecurity of Interoperable Medical Devices at the TMDA Spring meeting held on April 19, 2018. The panel shared their insights on building in protections from initial concept through after market. A key theme emerged... Risk Management and Risk reduction should be a constant activity. A good piece of advice is to treat all devices as a Class III... impart all requirements of a life-sustaining software device to even the most basic software interfaces. This applies to new devices under development but also “legacy” devices.

The second half of the session was dedicated to HeartFlow, Inc., [www.heartflow.com](http://www.heartflow.com). Dr. Christopher Zarins, Founder and Sr. VP of Medical Affairs and Board of Directors, shared challenges faced while seeking FDA clearance of a novel Fractional Flow Reserve (FFRct), which is the first and only non-invasive imaging technology for Coronary Artery Disease (CAD). It offers insight on both the extent of a patient’s blockage and blood flow to determine whether a patient needs a subsequent cardiac catheter. The clearance involved a challenging course of action including First in Man studies, a randomized clinical trial, a 510(k) submission and finally a DeNovo clearance was granted in 2014. Since its use, the device has been able to reduce

unnecessary stress tests and cardiac stent procedures, which saves up to \$3000 per patient and reduces patient exposure to unnecessary treatments. A win for patients and a win for hospitals. “Don’t give up,” although the course may be challenging, Dr. Zarins advises for a steady, methodical plan from device concept through clearance, ideally building Risk Management, HIPAA and Cybersecurity from the onset. – With thanks to Gretchen Upton, TMDA FMDIC Liaison.

Next Quarterly Meeting July 19, Forensic Engineering by guest speaker:  
Yadin David, Ed.D., P.E., C.C.E., Principal, Biomedical Engineering Consultants, LLC

## **INDUSTRY NEWS**

### **Technology And Patient-Centric Trials**

The term patient-centric is about ensuring that the needs and perspectives of the patients are taken into consideration, while maintaining scientific rigor in the methodology of a clinical trial. Pharmaceutical sponsors have begun engaging patients in trial design by seeking input and acknowledging the importance of this input in conducting a successful clinical trial.

<http://www.pharmavoices.com/article/2018-04-patient-centric-trials/>

### **What Is ‘Disruptive Diagnostics’ And How Is It Changing Health Care?**

Disruptive diagnostics uses innovative technology to make testing for diseases more accurate, efficient, and less costly. An amazing example of disruptive diagnostics is the MAsSpec pen, which was presented by the University of Texas at the 2018 SXSW Conference in Austin. The portable MAsSpec pen is a miniaturized mass spectrometer that can detect cells in the early stages of cancer within 30 seconds.

<https://edgylabs.com/what-is-disruptive-diagnostics-and-how-is-it-changing-health-care>

### **Prosthetic Heart Valves Market To Surge To US\$ 3.62 Billion By 2025**

Heart valves play an important role in controlling the blood flow to and from the heart. Prosthetic heart valves, commonly known as artificial valves, can replace damaged valves in the hearts of patients suffering from valvular heart disease.

<https://www.coherentnews.com/prosthetic-heart-valves-market-to-surge-to-us-3-62-billion-by-2025/>

### **Digital Health Funding In Q1 2018**

In the first three months of 2018, MobiHealthNews tracked 30 digital funding rounds comprising approximately \$1.2 billion in collective funding, as well as two rounds with undisclosed totals. While these numbers may fall short of 2017’s staggering first quarter (which consisted of 46 deals totaling \$1.47 billion, including \$800 million for Verily alone), the beginning of the year has still seen its fair share of heavy hitters.

<http://www.mobihealthnews.com/content/digital-health-funding-q1-2018>

### **Accruent Acquires Connectiv To Improve Med Device Control**

Accruent has acquired Connectiv, a cloud-based mobile-enabled software company that allows biomedical and clinical engineering groups to manage and control all aspects of their medical

devices and equipment. Accruent is a global software company based in Austin, Texas that helps organizations manage their physical resources—such as facilities and asset management— with its cloud-based software and services. Connectiv’s asset management solutions are intended to address cyber risks facing medical devices.

### **CPRIT Announces New Seed Award for Early-Stage Oncology Startups**

The Cancer Prevention and Research Institute of Texas (CPRIT) introduces a new award mechanism for early-stage oncology startups. Under the Seed Award program, a company applies for up to \$3M in nondilutive funding for the development of innovative cancer therapeutics, diagnostics, or tools.

For more information, please visit [www.cprit.texas.gov](http://www.cprit.texas.gov) or contact: Michael Lang, Chief Product Development Officer, (512) 305-8419, [mlang@cprit.texas.gov](mailto:mlang@cprit.texas.gov), or Rosemary French, Program Manager for Product Development, (512) 305-7676, [rfrench@cprit.texas.gov](mailto:rfrench@cprit.texas.gov)

## **UPCOMING EVENTS**

APPLICATION DEADLINE: MAY 1  
FRIDAY, MAY 11-13, San Antonio, TX

### **The HealthTech Bootcamp (TICKETED)**

The HealthTech Bootcamp is a 3-day weekend event that helps develop ideas for healthtech startups, companies that use digital technology to improve health. Pitch your idea, gather a team, and work with the support of expert mentors to move your idea from vision into reality. The event culminates in a pitch competition with judges from across the health and technology sectors and the opportunity to win prizes!

<http://thehealthcell.org/sitepage/healthtech-bootcamp/>

For more information check out these articles on the HT Bootcamp:

- <https://therivardreport.com/startup-weekend-to-provide-shot-in-the-arm-for-health-tech/>
- <http://www.startupssanantonio.com/the-health-cells-boot-camp-to-jump-start-healthtech-startups/>

TUESDAY, MAY 1, 9:30am – 8pm, Austin, TX

### **5th Annual THBI Summit: The Policies And Politics For A Healthy Texas Sheraton Austin Hotel at the Capitol (TICKETED)**

THBI is the public policy voice for the life science industry in Texas. Join us for a conversation on The Policies and Politics for a Healthy Texas and hear industry experts and elected office discuss the hottest topics in Texas' life science industry:

- Is the Texas Miracle at Risk? How to Keep Texas Competitive in an Evolving Political Market
- The Cost of Healthcare: Challenges Facing Patients, Providers and Innovators
- Solutions to Community Health Epidemics
- The Evolution of Communities Through Healthcare Innovation

<https://www.eventbrite.com/e/2018-texas-healthcare-and-bioscience-summit-and-luminary-dinner-tickets-42502541245>

THURSDAY, MAY 3, 12pm – 1pm CDT, Online

**Webinar: Understanding the Changes in the EU MDR 2017/745 (FREE)**

Pathwise and Greenlight Guru

This webinar will cover an overview of the changes to the European Medical Device Regulations. It will explore the key drivers of the regulation change and what that means for organizations going forward. The webinar will also cover the importance of educating teams now to be ready for the 2020 deadline.

THURSDAY, MAY 3, 1pm – 3pm, Austin, TX

**Health Tech Austin: IBM Watson (FREE)**

See a demo of IBM Watson cognitive technology and tour IBMs “aging in place” lab and design thinking studio.

<http://www.healthtechaustin.com/>

FRIDAY, MAY 4, 7am – 3:45pm, Temple, TX

**Growing Your Startup From The Ground Up (FREE)**

Join Temple Health & Bioscience District's (THBD) annual medical technology conference and pitch competition.

<https://www.eventbrite.com/e/growing-your-startup-from-the-ground-up-annual-medtech-symposium-pitch-competition-tickets-44200548029>

FRIDAY, MAY 4, 11:30am – 12:30pm CDT, Online

**Webinar: Create Your Next Career Opportunity Anytime You Want (Members FREE)**

Women In Bio – Metro New York

Imagine getting up on a Monday morning being excited and inspired about the day ahead! It's possible to feel on track with your career, and there are plenty of career opportunities out there. Our tried and tested Career CLARITY process has helped hundreds of professionals identify work that helps them be happy on Mondays. This live training will give you an understanding of 5 key practices needed to create career opportunities. Led by Alison Cardy.

<https://www.womeninbio.org/events/EventDetails.aspx?id=1095443&group=>

MONDAY - WEDNESDAY, MAY 7 - 9, Houston, TX

**Japan-Texas Economic Summit by the U.S. - Japan Council (TICKETED)**

An event that will examine the historic trade ties between Japan and Texas and explore business development opportunities between Japanese and Texan businesses.

<https://www.jetro.go.jp/usa/topics/japan-texas-economic-summit-by-the-us-japan-council.html>

TUESDAY, May 8, Austin, TX

**Texas-EU Business Summit (TICKETED)**

In its 7th year, the Texas-EU Business Summit is the premier event for Texas businesses, entrepreneurs, and economic development professionals seeking to expand their footprint in Europe. The summit provides Texas businesses, entrepreneurs, policymakers, and target businesses with an overview of trade and expansion business opportunities in Europe, as well as information and connections to make the most of those opportunities.

FRIDAY, May 11

**Application Deadline: TMCx Accelerator Medical Device 2018**

Located in the TMC Innovation Institute, the TMCx accelerator program provides startup companies with shared workspace, a curriculum tailored to the needs of health care entrepreneurs and the guidance of over 120 advisors from the front lines of the industry. Companies have access to the world's largest medical center, all without membership fees or equity sharing.

<http://gust.com/programs/tmcx-accelerator-medical-device-2018>

MONDAY, MAY 14, 8-10am, Austin, TX

**Telemedicine Across Texas: A Panel Connecting Patients & Providers (FREE)**

Join Capital City Innovation at Capital Factory and Austin Tech Alliance for this free panel discussion on connecting patients and providers. We will have breakfast tacos and coffee as we hear from local experts about the status of telemedicine in Texas.

<https://www.eventbrite.com/e/telemedicine-across-texas-tickets-45200862998>

THURSDAY, MAY 24, 5 – 9pm, Irving, TX

**bionorthTX Third Annual Member Showcase (Members FREE)**

Come meet and network with some of our newest members, partners, and support organizations about the services and products available to our local life science community and region.

Contact [Miriam@bionorthTX.org](mailto:Miriam@bionorthTX.org) for more information; <https://bionorthtx.org>

THURSDAY, MAY 31, 3pm, Austin TX

**Texas Health CoLab's Monthly Learning Series "Introduction: Healthcare Market for Entrepreneurs & Innovators" (FREE)**

Are you an established entrepreneur or innovator looking to move into the healthcare space? Are you an up-and-coming researcher thinking about commercializing your health-related technology or solution? Do you work in healthcare and want to know why in the world the industry is the way that it is? If so, this is the event for you! Join the Texas Health CoLab's Learning Series event "Introduction: Healthcare Markets for Entrepreneurs" as Bob Teague, MD, reviews basic elements that confound the introduction and adoption of great products and solutions in healthcare. The intent is to help entrepreneurs and innovators prepare to successfully shift from the lab or the startup to the broader healthcare market.

<https://www.eventbrite.com/e/texas-health-colabs-monthly-learning-series-introduction-healthcare-market-for-entrepreneurs-tickets-45490098108>

JUNE 2018, Austin, TX (Date/Venue TBD)

**BioAustin BioBash (TICKETED)**

BioAustin's goal is to make Austin and Central Texas the best place in the world to start and grow a Life Science company. BioBash is our premier networking event and provides attendees a chance to hear from the life sciences companies here in Central Texas, network with other life science professionals, and see posters from our academic community.

Stay tuned for details

<http://bioaustin.com/>

MONDAY, JUNE 4, 4:30-7pm, Boston, MA

**Women In Bio (WIB) Annual Plenary Event: Lift While You Climb (TICKETED)  
2018 Biotechnology Innovation Organization (BIO) International Convention**

Please join us for our annual WIB Plenary Event. Speakers Penny Heaton (CEO, B&M Gates) and Nora Volkow (director, NIDA, NIH) will highlight their experiences with supporting and encouraging others while advancing their own careers. The 2018 Plenary Event encompasses

an inviting and fun environment for networking as it brings together people from all corners of the life sciences industry and spawns new career and business opportunities.

To sponsor this event, please email [info@womeninbio.org](mailto:info@womeninbio.org).

<http://www.womeninbio.org/events/EventDetails.aspx?id=1089062&group=>

SATURDAY, JUNE 9-13, Burlington, VT

**Association of Food and Drug Officials: 122nd AFDO Annual Educational Conference (TICKETED)**

<http://burlington.afdo.org/>

AGENDA:

[http://burlington.afdo.org/uploads/1/5/9/4/15948626/2018\\_afdo\\_conference\\_program\\_02.22.18.pdf](http://burlington.afdo.org/uploads/1/5/9/4/15948626/2018_afdo_conference_program_02.22.18.pdf)

THURSDAY, July 19, Austin, TX

**Texas Medical Device Alliance (TMDA) Quarterly Meeting: Forensic Engineering (FREE)**

Forensic Engineering-What is it and Why it is Important in My Medical Device Business

Forensic engineering is the application of engineering principles to the investigation of failures or other performance problems. Guest Speaker, Yadin David, Ed.D., P.E., C.C.E., Principal, Biomedical Engineering Consultants, LLC

<https://www.eventbrite.com/e/texas-medical-device-alliance-tmda-quarterly-meeting-forensic-engineering-tickets-45526251243>

THURSDAY-FRIDAY, AUGUST 8-9, Austin, TX

**Life Science Women's Conference (TICKETED)**

BioAustin members will be offered an exclusive discounted registration fee of \$995 (regular price is \$1250). Enter the coupon code "TMDA2018" on the website for this event.

<https://lifesciconf.com/>

MONDAY-TUESDAY, AUGUST 12-14, Philadelphia, PA

**7th Clinical Trials Inspection Readiness Summit (TICKETED)**

As clinical trials are conducted, inspections ensure quality and integrity of care, data, and drug performance. Clinical trials must be prepared for visits from countless stakeholders over their course. At the 7th Clinical Trials Inspection Readiness Summit, you will learn to improve inspection readiness and trial success through better documentation and operational standards.

<http://exlevents.com/clinical-trials-inspection-readiness-summit/>

TUESDAY, OCTOBER 2, Austin, TX

**Innotech Austin (TICKETED)**

Speakers and sessions are still being organized, but events will include Women in Tech Summit, DevOps, IT Security Track, and many more. Keep track of this event on the link below.

<http://www.innotechconferences.com/austin/>

**Please Notify Us Of Any Upcoming Events!**

## CAREER CORNER

### **Aeglea Biotherapeutics (Austin, TX)**

- Associate Director/Director, Biostatistics
- Director, Clinical Operations

- Director of Protein Engineering
- Director of Regulatory Affairs
- Procurement Manager
- Postdoctoral Research Scientist – Protein Engineering
- Research Scientist – Protein Engineering
- Sr. Clinical Project Manager
- Sr. Medical Writer
- VP of Oncology, Clinical Development

<http://www.aegleabio.com/biotechnology-careers/#career-opportunities>

### **Arsenal Products (Austin, TX)**

- Solidworks CAD Technician  
<https://arsenal-products.careerplug.com/jobs/725469/apps/new>
- Project - Medical Device Automated Tooling  
<https://arsenal-products.careerplug.com/jobs/718779/apps/new>
- Automation Engineer - Mechanical Engineering  
<https://arsenal-products.careerplug.com/jobs/664882/apps/new>
- Principal Product Development Engineer - Medical Devices  
<https://arsenal-products.careerplug.com/jobs/716624/apps/new>

### **Austin Healthcare Companies (Austin, TX)**

- Talent Search via Built in Austin

<https://www.builtinaustin.com/guides/austin-healthcare-companies>

### **CSA Laboratory Solutions (Austin, TX)**

- Seeking a sales manager to lead sales operations, inbound/outbound lead generation and integrative marketing for life science and healthcare services.

Contact Joe Rettinger, VP, Laboratory Services CSA Laboratory Solutions, Email: [joe.rettinger@csa-service.com](mailto:joe.rettinger@csa-service.com), Office: 512.732.1210 ext 112, Mobile: 512.775.6754

### **FDAQRC (TX)**

- GCP/GMP Auditor
- GCP/PV Auditor
- Project Manager
- Resource Manager

[https://fdaqrc.com/careers/?utm\\_source=Friends+of+FDAQRC&utm\\_campaign=43300d82ee-EMAIL\\_CAMPAIGN\\_2018\\_03\\_19&utm\\_medium=email&utm\\_term=0\\_3f1bd5c5c0-43300d82ee-121156925](https://fdaqrc.com/careers/?utm_source=Friends+of+FDAQRC&utm_campaign=43300d82ee-EMAIL_CAMPAIGN_2018_03_19&utm_medium=email&utm_term=0_3f1bd5c5c0-43300d82ee-121156925)

### **Globiox (Austin, TX)**

- Regulatory Affairs/Quality Auditing Specialist

<https://www.indeed.com/viewjob?jk=9217d403b6fcb3c&from=myjobs&tk=1c79cu7uuao6k8r1>

### **HCB Health - Marketing Communications (Austin, TX)**

- Project Manager
- Senior Copywriter
- Copy Supervisor

Apply with [myra.bull@hcbhealth.com](mailto:myra.bull@hcbhealth.com)

### **LeadingReach (Austin, TX)**

A referral management and patient engagement platform for the entire healthcare ecosystem.

- Customer Success Specialist
- Market Development Representative
- Senior PHP or Full-Stack Developer

<https://www.builtinaustin.com/company/leadingreach-inc>

### **Luminex (Austin, TX)**

- Scientist, Level 1 (Req #282)
- Pricing Analyst (Req #303)
- Quality Assurance Technician – Limited Assignment (Req #301)
- Field Service Engineer – Ne – St. Louis (Req #295)
- Senior Product Manager – Systems (Req #289)
- Chemistry Production Manager (Req #275)
- Associate Product Manager (Req #275)
- 2500 Manufacturing Technician I (Req #283)
- Senior Manager, Digital User Experience (Req #287)
- Quality Systems – QA Engineer (Req #211)
- 2510 Manufacturing Assembly Associate I (Req #265, 263, 262, 257, 197)

<https://www.luminexcorp.com/about-luminex/careers/open-positions/>

### **Medical Device Search Group**

- Regulatory Affairs Manager (Dallas, TX)  
Requires application of regulatory knowledge, technical/business understanding, and people management skills to lead a regulatory team with pre- and post-market responsibility. Serves as the Regulatory Affairs leader for the Communications Business Unit, interacting with other functional teams.
- Regulatory Affairs Specialist International (Dallas, TX)  
Regulatory Affairs Specialist to focus on Class II and Class III submissions to international regulatory agencies in countries like Brazil, China, Japan, EU, etc. This candidate should have experience advising teams and communicating prior deficiencies with past submissions.
- Director of Quality & Regulatory Affairs (Long Island, NY)  
This position is with a \$100M medical device company based in the New York area. The position would have global responsibility for all regulatory and quality activities and reports into the CEO. This company is stable and growing. The position is heavily focused on quality, so candidates need to have strong quality experience with good regulatory exposure. This person will have the opportunity to refine and streamline the company's quality management system, serve as the company's primary point of contact for all regulatory matters, and have influence on the direction and success of the company. Candidates need to have strong executive leadership skills and have the ability to work in a collaborative team-oriented environment. Relocation assistance is available for the right candidate. Are you ready to make an impact?

Contact: Andrew Brown, Medical Device Search Group, Inc. call 786-372-4343 or email Andrew at [abrown@medicaldevicesearchgroup.com](mailto:abrown@medicaldevicesearchgroup.com)

### **Medical Writing Contract Position (TX)**

- 12-month Medical Writing contract position with a Medical Device company. Person must be on site in any of the three following: Tennessee, Texas, or Massachusetts.
- Email Dennis Kapsimalis (ALKU) at [dkapsimalis@alku.com](mailto:dkapsimalis@alku.com) or call 978-296-1888 to discuss further.

### **Merck (Austin, TX)**

- IT Security Awareness Specialist

- IT Quality Laboratory Senior Analyst
  - DevOps Engineer – Computation Platforms
- <https://jobs.merck.com/search/?q=austin+texas&startrow=1>

### **Pharmatech Professionals, Senior Regulatory Affairs Specialist (Denver, CO)**

- Software experience is required for this opportunity to work on new technology with this medical device company. Relocation assistance is offered.

Email Mike Lambert at [mlambert@pharmatechpro.com](mailto:mlambert@pharmatechpro.com) with your resume and your available hours to talk.

### **Skills Alliance**

We are a Global Pharmaceutical Recruitment Agency specializing in Permanent & Contract placements in Pharma, Biotech and Medical Device Industries.

- Global Regulatory Submissions Project Managers (Remote)  
This is an opportunity with one of our Leading BioPharma clients. This is for a Home-Based contract position that has the potential to renew or extend.  
Ideal Candidate Must Have:

At least BA/BS/MS degree (Life Science)

Global Regulatory Submissions experience (MAA, EU & US)

At least 7 years in the Bio/Pharmaceutical industry

At least 5 years Project Management experience

Document Management Systems experience, including Microsoft Office Suite & Microsoft Project

Email Sarah Fletcher at [sarah.fletcher@skillsalliance.com](mailto:sarah.fletcher@skillsalliance.com) to discuss further.

**Please Notify Us Of Any Careers Opportunities!**
